

**Miss Renuka Saraswati with her brother and mother**

- Miss Renuka Saraswati from Shree Saraswati Orphanage, Dharan has been taken by her brother Mr. Affal Bahadur Tamang on February 1, 2006.
- His age is around 23 years. They have their mother of around 68 years of age. Mother is mentally not well and sometimes seen roaming around the market. They do not have their father.
- They have planned to stay in a family together with a mother, sister and a brother in it.
- Due to helpless condition, during their childhood, he was also grown up by the next family in Dharan.
- Mr. Affal works in the jewelry shop in Dharan whose owner is Mr. Megh Raj Shrestha.
- Now he is capable enough to handle a family with a mother and a younger sister so he is allowed to take his sister along with him.
- She entered into the orphanage 11 years earlier in September 20, 1994. She is studying in class 9 in Sikchhya Niketan (government school), Dharan. She was the eldest children in the orphanage. She talked less, could do her works in a better way, cared her brothers and sisters very well; and her education was satisfactory.
- The people around say that it has become better because she is already 18 years of age and as per the organization's norms she was to manage in some other place in coming days, so taking to her by her brother was the best option available.
- He had tried to take her sister two years earlier but the survey report showed that instantly he was not capable to meet their requirements and give proper care to Miss Renuka so he was not allowed. However in the current attempt, he was allowed because of his enough capability and Renuka's interest on going with him.
- Renuka was also glad on going with her brother to live with their mother commonly.
- We wish her for a better and successful future.

Thank you,

Sansar
