

Monthly report Dipendra school july 2020

Academic activities

Educational performance (overall)

This month july in Nepal lockdown has be released but still all schools were remained closed. Even lockdown has opened, corona is still active in Nepal. Almost 20000 peoples are infected by corona and 15000 people has been cured as well as 49 has been dead. Because of that our Dipendra school and other schools are also not opened yet even though lockdown opens in Nepal.

All the teachers come to school even classes is not running. They are doing registration of new students and managing the school files as well as cleaning the class rooms and the surrounding of school.

Because of the rainy season all the water comes to school from the road which has increased the work of school staffs. They use to clean everyday by plugging grasses / by cleaning mud which rain has brought from road.

On the 11th of July 2020 SHC organized the meal program to the 46 families as food relief program those who are in really need. More that 75 students got that food packages. For the rest of the students had already got on previous months. That's why all together we have distributed to all 180 students. While distributing the food packages we (SHC) and school have obtain all the rules which we have to maintain to avoid corona. By checking with thermogun / wearing masks / using handsanitizer.

This month July the government has provided one electronic attendance device to the school. So that teachers and all staff can entry their attendance in online which will help school to keep record that which teachers and staffs are coming on time or not. It has been installed in computer class of the school. Likewise all the teachers are giving classes to the students in the teacher's home, and students are also attending the class for their study.
